# ALVIN CHONG

FULL STACK DEVELOPER

## About Me

Seeking an opportunity to add value to an innovative company. Selfless and motivated to get the task done.

## Projects

### Deuces

- Fetches public bathroom data from Open Data NYC.
- Integrates Google Maps API, to show your current location, a location entered and existing bathrooms.
- Made with React.js

### Iternant

- A flight finder for a spontaneous trip made with React.js and Node.js
- Based on amount of money, a flights are randomly searched to where you would like to travel.
- Incorporates Expedia API and gives a destination with the most affordable ticket

### Oh Balls

- An addicting short game that lets the user shoot balls into a fast moving object.
- The balls can be randomly moved to a new position and has a countdown until the game is over.
- Made with HTML/CSS/Javascript/jQuery.

## Experience

### Web Development Immersive, General Assembly

Aug 2016-Nov 2016

New York, NY

General Assembly's Web Development Immersive (WDI) is a 12-week long training program dedicated to prepare students to think like engineers and approach problems creatively in order to build the next generation of web applications and digital products
